

# NOTE TO AG & CONSERVATION PROFESSIONALS

## The Minnesota Conservation Funding Guide

Now available at [www.mda.state.mn.us](http://www.mda.state.mn.us) under do it online

We hope conservation/ag professionals will find the Conservation Funding Guide a handy online reference and source of supplemental information for landowners & land managers on key conservation practices, programs & payments.

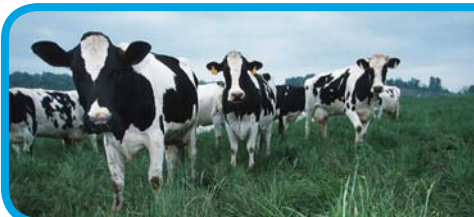

The **Conservation Funding Guide** complements but could never replace the customized assistance landowners receive from local conservation/ag professionals. Nearly every page in the guide has links to local contacts.

The **Conservation Funding Guide** is a work-in-progress with new information and updates added continuously. As programs and payment rates change, the guide will be updated to reflect these changes.

To quickly cross-reference practices in the **Conservation Funding Guide** with Minnesota NRCS practice standards, go to [www.mda.state.mn.us](http://www.mda.state.mn.us) and type the NRCS practice standard name or number into the Search tool at upper left.

Help us improve the **Conservation Funding Guide** by sharing your ideas with us. Also, if you would like to help inform landowners about the guide, request copies of our [postcard](#) and/or consider an article in your organization's newsletter using our [news release](#).

*The Conservation Funding Guide was developed by MDA with help from an NRCS Conservation Partnership Initiative grant to the Minnesota Board of Water & Soil Resources, in collaboration with the Zumbro Watershed Partnership. We look forward to future partnerships to help enhance and maintain the tool.*
