

COPING WITH FARM & RURAL STRESS IN MINNESOTA

To request a copy of this brochure,
call 651-201-6012.

Farming can be a stressful occupation. Often, you live where you work. Your co-workers may be your spouse or other family members. While you get to be your own boss, you feel responsible for a lot and can control very little.

Financial problems, price and marketing uncertainties, farm transfer issues, production challenges, marital difficulties, and social pressures can be real sources of stress for farmers and farm family members. Inside this brochure, you'll find some of the people and organizations who are ready to help.

In accordance with the Americans with Disabilities Act, this information is available in alternative forms of communication upon request by calling 651-201-6000. TTY users can call the Minnesota Relay Service at 711. The MDA is an equal opportunity employer and provider.
