Grant Summary

Overview

The Minnesota Down Payment Assistance Grant offers dollar-per-dollar matching up to \$15,000 for qualified farmers purchasing their first farm. The grant program is administered by the Minnesota Department of Agriculture Rural Finance Authority (RFA) as part of its mission to develop the state's agricultural resources.

The intent of the grant program is to help Beginning and Emerging Farmers invest in farm ownership. With the average age of farmers increasing in our state, farm succession and legacy planning is important to the sector. At the same time, land access is one of the most noted barriers for Beginning and Emerging Farmers to succeed. As noted in the [MDA's Emerging Farmers 2022 Legislative Report](#),

"Land ownership and agricultural professions are a key pathway to building inter-generational wealth, both for family units and within communities. Opening pathways for Emerging Farmers can also revitalize rural communities and increase economic activities in Greater Minnesota."

Funding Availability

The Minnesota State Legislature approved \$500,000 in fiscal year 2023 for down payment assistance grants to Minnesota farmers earning less than \$250,000 per year in gross agricultural sales. The RFA will award this funding using a **first-come, first-served application process**. Applications will remain valid for purchases closing within 90 days of approval or until May 15, 2023, whichever is sooner.

RFA expects to award 30-40 grants in the first funding cycle, dependent on size of grant requests. Applications will be accepted continuously until a waitlist of 100 applicants forms or until May 15, 2023, whichever happens first. A second and third grant cycle of \$750,000 each is secured and will begin July 1, 2023 and July 1, 2024.

Application Review Policies

Review Process

RFA will review all complete applications for eligibility and existence of secured financing for the farmland purchase. This may include purchaser cash, loans, grants, and other sources. Applications will be reviewed on a rolling basis, and applicants will be notified of decision within approximately two weeks after applying.

Conflicts of Interest

State grant policy requires that steps and procedures are in place to prevent individual and organizational conflicts of interest, both in reference to applicants and reviewers ([MINN. STAT.16B.98](#) and [Conflict of Interest Policy for State Grant-Making, 2022 \(Word\)](#)).

Organizational conflicts of interest occur when:

- A grantee or applicant is unable or potentially unable to render impartial assistance or advice to the MDA due to competing duties or loyalties.
- A grantee's or applicant's objectivity in carrying out the grant is or might be otherwise impaired due to competing duties or loyalties.

In cases where a conflict of interest is suspected, disclosed, or discovered, the applicants or grantees will be notified and actions may be pursued, including but not limited to disqualification from eligibility for the grant award or termination of the grant agreement.

Privacy Notice and Data Classification

The information provided by an applicant will be used to assess the applicant's eligibility to receive a grant under the Down Payment Assistance Grant Program. The decision to apply for this grant is voluntary, and applicants are not legally required to provide any of the requested information. Applicants may decline to complete this application without any legal consequence. However, only completed applications will be considered for a grant; incomplete applications will not be considered.

Access to private or nonpublic data submitted by an applicant is limited to parties authorized by law to access it, including but not necessarily limited to MDA staff and contractors with a valid work assignment to access the data, parties authorized by the applicant, parties identified in a valid court order or federal subpoena, Minnesota Management and Budget, Minnesota Department of Administration, the state auditor, and the legislative auditor. If necessary, the MDA may also share the data with law enforcement or the Office of the Attorney General.

Procedure for Claiming Protection of Trade Secrets: Trade secret information is classified as not public data. In order to qualify as trade secret information, the data in question must be provided to the MDA by the affected person (i.e. the data must be about the applicant) and otherwise meet the legal definition found in [Minn. Stat. § 13.37, subd. 1\(b\)](#). In order for an applicant to assert trade secret protection for data submitted as part of this application: the applicant must: 1) clearly identify the specific formula, pattern, compilation, program, device,

method, technique or process that the applicant believes to be trade secret information; 2) describe what efforts the applicant takes to maintain the secrecy of the data; and 3) adequately explain how the data derive(s) independent economic value from not being generally known to, and not readily ascertainable by proper means by, other persons. Merely asserting trade secret protection does not, in and of itself, classify the data in question as not public; determining what data meet the definition of trade secret information is ultimately the legal responsibility of the MDA, and the MDA cannot guarantee that data identified as trade secret information by an applicant will be classified as such. If the MDA determines that data do not meet the definition of trade secret information, the data in question will be available to the public unless the applicant secures a court order saying otherwise.

Every person, organization, or corporation applying for grants in the state of Minnesota must comply with Minn. Stat. § 270C.65, Subd. 3, and other applicable law. Under this law, the Grantee consents to disclosure of its social security number, federal employer tax identification number, and/or Minnesota tax identification number, already provided to the State, to federal and state tax agencies and state personnel involved in the payment of state obligations. These identification numbers may be used in the enforcement of federal and state tax laws which could result in action requiring the Grantee to file state tax returns and pay delinquent state tax liabilities, if any.

Requirements for Grant Recipients

Accountability and Reporting

Grantees are required to provide a settlement statement for their farmland purchase within three business days of closing. Grantees may be required to provide additional documentation for authorization purposes.

Follow-up reports are required to help us determine the long-term impacts of the grant. Grantees are required to respond to requests for follow-up information for up to five years beyond the term of the grant agreement. Failure to respond to these in a timely manner may impact your ability to secure future funding from the MDA.

Grant Award Agreement and Payments

Grant contract agreement templates are available for review at [Office of Grants Management Policies, Statutes, and Forms/Forms and FAQs tab](#).

Upon approval of an application and prior to receiving payment, the applicant is required to do the following:

- Register as a vendor in SWIFT, the State's accounting system, and submit other required documentation within 30 days of award notification
- Sign a Grant Contract Agreement indicating their intention to complete the proposed tasks. The agreement also authorizes the MDA to monitor the progress of the project. The grant award document must be signed within 10 business days of being sent to the grantee.

Eligible expenses may only be incurred after the contract has been signed by all parties. Grantees agree that for each year they do not own and farm the land during the following five-year period, that they will pay a penalty to the commissioner equal to 20 percent of the grant amount.

Affirmative Action and Non-Discrimination Policy

The grantee agrees not to discriminate against any employee or applicant for employment because of race, color, creed, religion, national origin, sex, marital status, status in regard to public assistance, membership or activity in a local commission, disability, sexual orientation, or age in regard to any position for which the employee or applicant for employment is qualified ([Minn. Stat. 363A.02](#)). The grantee agrees to take affirmative steps to employ, advance in employment, upgrade, train, and recruit minority persons, women, and persons with disabilities.

The grantee must not discriminate against any employee or applicant for employment because of physical or mental disability regarding any position for which the employee or applicant for employment is qualified. The grantee agrees to take affirmative action to employ, advance in employment, and otherwise treat qualified disabled persons without discrimination based upon their physical or mental disability in all employment practices such as the following: employment, upgrading, demotion or transfer, recruitment, advertising, layoff or termination, rates of pay or other forms of compensation, and selection for training, including apprenticeship ([Minnesota Rules, part 5000.3500](#)).

The grantee agrees to comply with the rules and relevant orders of the Minnesota Department of Human Rights issued pursuant to the [Minnesota Human Rights Act](#).

Audits of Project

Per [Minn. Stat. 16B.98, subdivision 8](#), the grantee's books, records, documents, and accounting procedures and practices of the grantee or other party that are relevant to the grant or transaction are subject to examination by the granting agency and either the legislative auditor or the state auditor, as appropriate. This requirement will last for a minimum of six years from the grant agreement end date, receipt, and approval of all final reports, or the required period to satisfy all state and program retention requirements, whichever is later.
