

Pesticide Label Revision Checklist

Significant content changes to pesticide labels must be reviewed by the MDA to ensure the changes are approved and won't affect registration status. Revisions that include a change in the product name or EPA number require a new registration. Complete the table below for each updated label. MDA will contact registrants if we have questions or concerns with the revisions.

NOTE: "Pollinator Lethal" is any product with a pollinator box or any pollinator, bee, or honeybee precautionary statements in the label's environmental hazards section .

Submit using only one of the following methods:

1. Email this completed checklist to Pesticide.Registration.MDA@state.mn.us and submit revised labels & SDSs through ALSTAR application.
2. Email revised labels & SDSs along with this completed checklist Pesticide.Registration.MDA@state.mn.us.

NOTE: All labels and SDSs must be submitted in text-searchable PDF format. Submit multiple forms if more space is required .

Line #	Name of product	EPA reg. #	Minnesota lic. # corresponding to this product	New crop use(s) added?	Agricultural use requirements box added or removed?	Restricted use pesticide (RUP) box added or removed?	Pollinator Lethal Product?	Method used to submit label & SDS
