

MOVE MILK, NOT DISEASE

Take care of clothes, equipment, and hands!

- Wear clean clothes
- Wash boots immediately on arrival to farm using an approved disinfectant, bucket, and brush
- Use disposable boots when you don't have washable boots
- Use disposable gloves to protect hands and remove before leaving farm
- Dispose of any garbage and disposable gloves or boots on the farm before leaving

Avoid contaminated areas!

- Park away from animals, feed storage, and heavy on-farm traffic
- Avoid areas of the farm other than the milk house
- Stay away from animals and manure

Maintain cleanliness!

- Clean your cab frequently and collect trash in a bag that is disposed of daily
- Keep an extra set of clean clothes in the truck cab in case of a spill
- Wash your truck routinely, especially the tires and undercarriage, and especially during muddy conditions
