In accordance with the Americans with Disabilities Act, this information is available in alternative forms of communication upon request by calling 651-201-6000. TTY users can call the Minnesota Relay Service at 711. The MDA is an equal opportunity employer and provider.

Summary of Certification Requirements

1. All potatoes planted on a farm must be approved for certification and entered for inspection.
2. Lots shall not be stored in any warehouse where other potatoes are stored, and equipment used for grading and handling shall not be used for any other potatoes.
3. Each seed field must undergo at least two inspections during the growing season.
4. The zero tolerance for bacterial ring rot and potato spindle tuber virus means that no observed amount is allowed. The discovery of a single plant in the field or a single tuber in storage infected with bacterial ring rot shall cause rejection of the field or lot. The absence of a finding shall not be construed to mean that the field or lot inspected is free from the disease or disease causing agent.
5. Certification requirements are not complete on any lot of certified seed potatoes until it has been properly graded, identified with official tags or official bulk certificates, and has passed official grade inspection.
6. Final grading inspection and tagging is under the supervision of Federal-State inspectors and a certificate of inspection must accompany each shipment.

Grade Requirements

Three colored tags, blue, yellow, and white, are permitted for use in classification of grades for seed potatoes certified in Minnesota. Those inspection requirements, as well as standards, are defined in 1510.2355.

Winter Test

In order to help determine if any late season spread of certain virus diseases has occurred, all lots destined for re-certification are sampled at harvest for additional testing during the winter. Minnesota's winter test standards require that there be no more than one half of one percent of any or all virus diseases, and no spindle tuber or chemical damage detected in the sample to be eligible for planting for seed certification.

Disclaimer

A certification does not represent a warranty of any kind, expressed or implied, including merchantability, as to the quality of the crop produced from the certified seed potatoes. A certification represents only that the seed potatoes were produced, graded, sacked, or placed in bulk, and inspected in accordance with Minnesota Rules Parts 1510.2330 to 1510.2355.

Limited Generation Certified Seed Potatoes

Prepared by the Certification Section of the Potato Association of America.

Revision Date: 12/2024

¹ The purpose of this table is to express equivalency of terms used by various certification agencies for seed potatoes harvested from a series of successive field plantings. For specific criteria relating to disease tolerances and other requirements, the reader is referred to the certification regulations of the agency in question.

² The first field planting utilizes laboratory-tested stocks which may be tissue-cultured plantlets, greenhouse-produced minitubers, stem cuttings, or line selections. Contact agencies for details as to types of stocks planted in their programs.

³ Terms used by agency for seed potatoes for a particular year in the field: C = certified, E = elite, F = foundation, G = generation, N = nuclear, PE = pre-elite.

⁴ If lots originate at Cornell-Uihlein Farm, the first three generations (G1-G3) are also designated by a (U) to denote source.

⁵ FY = Field Year

⁶ FY = Foundation Year

Final Approved List of Certified Seed Potato Lots Eligible for Recertification Planting

The following list of seed lots have met field inspection requirement for certification. Samples from these lots have been winter tested to determine their final classification and eligibility for recertification. Seed class designations are as follows: Primary Foundation (PF), Foundation (F), Generation 1 (G1), Generation 2 (G2), Generation 3 (G3), Generation 4 (G4), Generation 5 (G5). A variety may be protected by the Plant Variety Protection (PVP) Act. Buyers should validate the status of the variety from the vendors and variety owner.
