

# MINNESOTA AGRICULTURAL EXPORTS

Minnesota is one of the leading agricultural exporting states in the United States. More than one-third of Minnesota's agricultural production is exported to customers around the world each year.

Minnesota's central location, extensive transportation network, and access to rail, highway, river, and Great Lakes shipping routes help connect producers to global markets. Combined with a reputation for quality, food safety, and reliability, Minnesota is well-positioned to meet the needs of international buyers and food manufacturers.

## Minnesota at a Glance

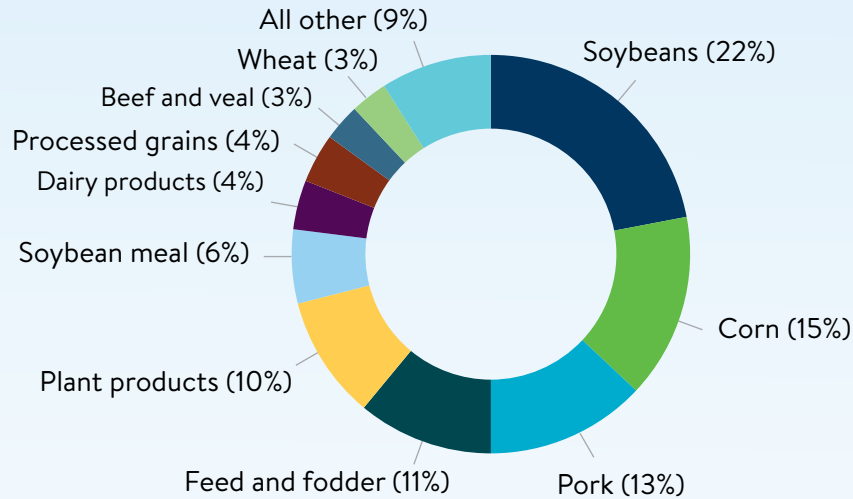

- **Minnesota is the 4th largest exporting state in the U.S.**
- **Minnesota exported \$8.3 billion globally in 2024**

Minnesota's top agricultural export markets in 2025 include Mexico, Canada, Japan, South Korea, China, Columbia, Vietnam, Taiwan, Netherlands.

## Minnesota's Top Agricultural Exports

## Interested in Sourcing from Minnesota?

Whether you are seeking agricultural commodities, food ingredients, consumer products, or business partnerships, the Minnesota Department of Agriculture's International Marketing team can help facilitate the connections you need.
