Ka jawaabida Natijjada oo COVID-19 Laga Helay

Waaxda Caafimaadka ee Minnesota waxay ku talinaysaa in baaritaan joogtada ah lagu sameeyo shaqaalaha aan isku arag calaamadaha cudurka (xitaa kuwa leh astaamaha cudurka oo aad u fudud), kuwa lagu aqoonsaday baaritaan xoog leh oo lagu sameeyey shaqaalaha bilowga shifti kasta ee shaqada. Laakiin, waxaa jiri kara xaalado marka la baarayo dhammaan shaqaalaha (kuwa calaamadaha cudurka isku arkay iyo kuwa aan isku arkinba) ay tahay in la tixgeliyo. Qodob muhiim u ah qaadashada go'aankan ayaa ah kor u kac aad u sarreeya oo kiisasaka cudurka laga helay ah muddo gaaban gudaheed, oo tiro ahaan ku habboon tirada shaqaalaha.

Maxaad filan kartaa haddii shaqaale laga helo COVID-19?

- MDH ayaa waxay wici doontaa shaqaalaha jirran si ay uga waraysato taariikhdooda jirrada iyo xiriirada guriga iyo goobta shaqada.
- Waxay noqon kartaa dhowr maalmood kahor inta wakiil ka socda MDH awoodayo in uu waco oo waraysto shaqaalaha jirran. Sidaas darteed, waxaanu kugula talinaynaa ku dhiirrigelinta shaqaalahaaga inay saxeexaan foomka “Authorization for Disclosure of Protected Health Information to Employer” (“U Ogolaanshaha Loo Shaqeyaha Siideynta Macluumaadka Caafimaadka ee Dhowrsoon”). Helitaanka natijjooyinka oo isla markiiba ah ayaa waxay idin siin kartaa fursad aad ku samaysaan raadinta xiriirka si aad u go'aamisaan shaqaalaha kale ee laga yaabo in uu soo gaaray.
- U diyaariya koox, ay kujiraan wakiillo ka socda warshada, MDA, caafimaadka dadweynaha maxalliga ah, iyo rugta caafimaad ee deegaanka, si ay dib ugu eegaan habka waxqabadka ugu wanaagsan isla markaana ay u abuuraan qorshaha baarintaanka shaqaalaha isku arka calaamadaha cudurka.

Goorma ayuu shaqaaale laga helay COVID shaqada ku soo noqon karaa?

- Shaqaale kasta oo laga helo cudurka, iyo sidoo kale shaqaalaha jirran ee aan baaritaan cudur lagaga helin, waa inay joogaan guriga, oo, haddii ay suurtagal tahay, ay yeeshaan qol iyo musql u gaar ah si loo yareeyo khatarta in uu ku faafo xubnaha kale ee qoyska. Waxay u baahan yihii inay keli ku ahaadaan guriga ilaa calaamaduhu ay ka tagaan oo saddexdan shuruudoodna la buuxiyey:
 - » Calaamaduhu way soo fiicnaadeen (tani waxay qaadan kartaa ilaa 14 maalmood) OO,
 - » Ugu yaraan 10 maalmood ayaa ka soo wareegtay tan iyo markii ugu horreysay ee astaamaha lagu arkay OO,
 - » Ugu yaraan saddex maalmood ayaa kasoo wareegtay tan iyo markii xumaddu ay tagtay (iyada oo aan la isticmaalin daawooyinka yareeya qandhada).

Ka waran goobta shaqada iyo qoyska xiriirka la leh shaqaalaha COVID laga helay?

- Xarumaha ka shaqeeya hilibka ayaa loo tixgelinayaa inay yihii kaabayaal muhiim ah waxayna waydiisan karaan dadka xiriirka la yeeshay qof uu soo gaaray cudurku in ay sii wadaan shaqada hadii aysan awoodaynin inay shaqadu socoto shaqaalahaas la'aantood. Si kastaba ha noqotee, MDH waxay ku talinaysaa dadka xiriirka la yeeshay qof uu soo gaaray cudurku ee warshadaha kaabayaasha muhiimka ahi in ay isku karantiilaan guriga 10 maalmood markii ay suurtagal tahay.
- **Xubnaha qoyska ee xirrikha la yeeshay waa inay joogaan guriga oo iskarantiilaan 14 maalmood.**

Sidee ayaad u caawin kartaa shaqaalahaaga?

- Siiya caawimaad shaqaalaha inta ay xanuunsanayaan oo ay kasoo bogsanayaan.
- Haddii shaqaale laga helo COVID-19 oo uusan haysanin waxyaabaha daruuriga ah, ee muhiimka ah oo ka horjoogsanaya in uu iskii isugu karantiilo guriga, la xiriira caafimaadka dadweynaha ee deegaanka. (www.health.state.mn.us/communities/practice/connect/findlph.html)
- Haddii shaqaaluhu khatar weyn ugu jiro inuu qaado xanuun halis ah (tusaale, da'diisa oo 65 sano ah ama ka weyn ama uu qabo xaalad jirta sida cudurka sambabada oo joogto ah, cudurka wadnaha oo joogto ah, sonkorow, kansar, ama sistamka difaaca jirka oo dacifay), la tashada daryeel bixiye caafimaad.

- Haddii calaamadaha cudurka ee shaqaaluhu ay ka sii darayaan, ka caawiya inay raadsadaan daryeel caafimaad idinka oo siinaya khayraadka sida helitaan taleefanka, gaadiidka, ama khayraadka kale ee lagama maarmaanka u ah helitaanka daryeelka loo baahan yahay.
- Haddii shaqaaluhu dareemayaan neefsashada oo ku adag, xanuun joogto ah ama cadaadis laabta ah, ama calaamadaha kale ee deg-dega ah, wac 911.
