FIFRA Sec. 24(c) Special Local Need Label

Additional Application Restrictions for Use on Dicamba-tolerant Soybeans

EPA Reg. No. 7969-345
EPA SLN No. MN-180002

CAUTION/PRECAUTION

Directions For Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Refer to the Engenia® herbicide container label, EPA Reg. No. 7969-345, for complete Directions For Use and all applicable restrictions and precautions. This label and the Engenia container label must be in the possession of the user at the time of pesticide application.

Use of preemergence herbicides that provide soil residual control of broadleaf and grass weeds, and are labeled for use in soybean fields, is recommended before using this product. Applying such herbicides at the maximum rate allowed by the label is recommended. Use of preemergence herbicides reduces early season weed competition and allows for timelier in-crop postemergence herbicide applications. Preemergence herbicides include but are not limited to acetochlor, clomazone, dimethenamid, flumetsulam, metribuzin, pyroxsulfone, saflufenacil, sulfentrazone, and trifluralin.

Restrictions and Limitations

In order to apply Engenia to dicamba-tolerant soybeans in Minnesota, the following restrictions apply:

- **Restricted Use Pesticide:** For retail sale to and use ONLY by Certified Applicators. Minnesota does not allow uncertified applicators to use Restricted Use Pesticides under the direct supervision of a Certified Applicator.

- **Cutoff Date:** Use of Engenia in dicamba-tolerant soybeans is **prohibited after June 20, 2018**.

- **Temperature:** DO NOT apply if the air temperature of the field at the time of application is over 85 degrees Fahrenheit or if the National Weather Service's forecasted high temperature for the nearest available location for the day exceeds 85 degrees Fahrenheit. Local National Weather Service forecasts are available at [https://www.weather.gov/phi/localclimate](https://www.weather.gov/phi/localclimate).
Conditions of Sale and Warranty

The Directions For Use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and must be followed carefully. However, it is impossible to eliminate all risks inherently associated with the use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or use of the product in a manner inconsistent with its labeling, all of which are beyond the control of BASF CORPORATION ("BASF") or the Seller. To the extent consistent with applicable law, all such risks shall be assumed by the Buyer.

BASF warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions For Use, subject to the inherent risks, referred to above.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR MERCHANTABILITY OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BUYER’S EXCLUSIVE REMEDY AND BASF’S EXCLUSIVE LIABILITY, WHETHER IN CONTRACT, TORT, NEGLIGENCE, STRICT LIABILITY, OR OTHERWISE, SHALL BE LIMITED TO REPAYMENT OF THE PURCHASE PRICE OF THE PRODUCT.

TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, BASF AND THE SELLER DISCLAIM ANY LIABILITY FOR CONSEQUENTIAL, EXEMPLARY, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT.

BASF and the Seller offer this product, and the Buyer and User accept it, subject to the foregoing Conditions of Sale and Warranty which may be varied only by agreement in writing signed by a duly authorized representative of BASF.
